

# LEICESTER-SHIRE AND RUTLAND SPORT - ANNUAL REVIEW TEMPLATE

## APRIL 07 TO MARCH 08

L&R Sport will structure the main body of its annual review by Local Authority area. So Blaby, Charnwood, etc, will each have a one or two page section of the report. We report in the review a range of facts, statistics and quality case studies. Your support in completing the template below will allow us to report a more concise picture to a broad audience of what is happening in each area.

In the sections "no. of coaches", "no. of officials", I would not realistically expect you to research which district each individual resides, rather just state how many coaches or officials attended a particular course held in a particular area.

NGB completing template .....

<b>LOCAL AUTHORITY</b>	<b>Clubs achieving accreditation (please state name of club)</b>	<b>New clubs or club sections developed (please state names of clubs)</b>	<b>No. Coaches qualified / developed (sports specific courses only)</b>	<b>No. Officials qualified / developed (sports specific courses only)</b>	<b>Any financial Investment generated (e.g Awards for All) please specify source and amount</b>
Blaby					
Charnwood					
Harborough					
Hinckley & Bosworth					
Leicester City					
Melton					
North West Leicestershire					
Oadby and Wigston					
Rutland					

If you can, please include a case study (max 150 words): good news story – where your work has directly impacted on player, coach or club development; e.g a young person progressing through the player pathway, or how a successful funding application has kick-started a clubs development, support of a volunteer who has then achieved personal goals, how development work has increased participation within a target group or area, etc, etc.

If you have already produced a case study, relevant to L&R for another purpose and wish us to use it, please e-mail it to [n.haines@lboro.ac.uk](mailto:n.haines@lboro.ac.uk) **Please forward completed forms and case studies by 2<sup>nd</sup> May 2008.** (A related picture would be very useful). Thanks.
